

SUPAWITH JANGTRAKUL

Mueang Nakhon Phanom, Nakhon Phanom | s.jangtrakul@gmail.com | 091-016-1818

Junior Software Developer with a strong foundation in JavaScript, HTML, CSS, PostgreSQL, MongoDB, and Git, equipped for full-stack development. Recently graduated from the Generation Bootcamp, where I trained extensively in problem-solving, cross-team collaboration, and clear technical communication key strengths highlighted in your role. I bring a structured, systematic approach to work, including task prioritization and time management, enabling me to contribute effectively within agile, multi-disciplinary teams. With an academic background in Biology, I excel at analytical thinking and learning new technologies quickly. Highly motivated, adaptable, and eager to grow in modern web development environments.

TECHNICAL SKILLS

- JavaScript
- HTML5 & CSS3
- PostgreSQL
- MongoDB
- Git / Version Control
- Agile Methodology
- Problem-Solving (Technical)
- Full-stack Fundamentals

SOFT SKILLS

- Systematic Work Approach
- Clear Technical Communication
- Cross-team Collaboration
- Teamwork in Multi-disciplinary Teams
- Task Prioritization
- Time Management
- Adaptability / Flexibility
- High Motivation & Growth Mindset

WORK EXPERIENCE

Pakchong Dairy Cooperative, Nakhon Ratchasima

Nov 2022 - Mar 2023

- Performed structured data collection and analysis on raw milk quality, applying systematic problem-solving and clear documentation practices that translate effectively into debugging and technical workflows.
- Conducted a three-year data evaluation project to identify performance trends, strengthening analytical thinking, data interpretation, and collaboration skills relevant to software development.

EDUCATION

Bachelor of Science in Biology

Jul 2019 - Mar 2022

Suranaree University of Technology, Nakhon Ratchasima

- Relevant coursework in Genetics, Microbiology, Biostatistics, and Research Methodology.

Generation Thailand

Oct 2025 - Jan 2026

Software Developer Bootcamp Cohort 11

- Completed a full-time immersive program covering front-end and back-end development, including JavaScript, HTML, CSS, Git, PostgreSQL, and MongoDB.
